# Event Profile

Paper is very important and in use in everyday life by millions today and for centuries gone. There is an ever growing demand for various paper and paper products with the improved trend in life styles, and due to the awareness on environmental sustainability, paper and related machinery manufacturers are adhering to eco-friendly methods to reduce carbon. Paper and the very vast products of the Paper Industry, are in continuous demand and manufacturers are always looking to improvise and launch new products and machinery

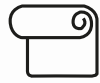

# Bangladesh Paper Industry

Bangladesh Paper Industry has evolved to a great extent. It is now a vast industry comprising more than 120 paper mills, providing employment to more than 5 lakhs people directly & indirectly. Due to growth in literacy, change in lifestyle and increasing consciousness for personal hygiene, per capita consumption of paper and tissue in Bangladesh is increasing day by day. The growth in GDP of Bangladesh has led to the increase in manufacturing activities, increasing the demand for paper products especially the paper boards for carrying out wide range of activities ranging from packaging to storage, transportation and lot more. The per capita paper consumption in Bangladesh at a little over 9 kg, is way behind the global average of 57 kg. Bangladesh is the fastest growing market for paper globally and it presents an exciting scenario; paper consumption is poised for a big leap forward in sync with the economic growth.
